I bring him out as a sew Bepublican candidate for Congress, and believe one important recommendation is, that he is camparatively unknown in the politics of this district. Although he has not mingled much in politics in this State, still I know him to be a close observer and a careful student of political matters. He spent the campaign of 1876 in Illinois, and was regarded as one of the most effective stumpers in that great State. The fact is, there is no other name under heaven that seems to carry with it the sign and sound of victory for our side.
